

How to Add a Cancer Story

Before Starting

- Make sure you have a [GitHub](#) account. If not, register a new account. Having a formal username is recommended.
- Make sure you got added as a collaborator for [Siyaj CAP](#)'s repository. If not, contact Abdullah Al-Lawati to invite you as a collaborator (an acceptance email will be sent to you from which you have to accept the invitation).

Step 1: Adding the Image

- Navigate to this folder: [Click Here](#).
- Click "Add file" → "Upload files".
- Upload an image from your PC to be the display image of the new story.
 - Note: It is recommended to have the name of the image the same as the ID of the story you will create (more on that later). Better have a small-sized JPEG image; the bigger the size, the longer the website will take to load (make sure the size does not reach a megabyte).
- Click "Commit changes".

Step 2: Adding the Story

- Navigate to this file: [Click Here](#).
- Click the pencil "Edit this file" icon  to edit the file.
- Copy an existing story block from the file and paste it as a template for your new story. Please pay attention to the explanation below:

```
var cancerStories = [  
  {  
    "id": "1",  
    "date": "01/01/2022",  
    "title": "This is a title 1",  
    "type": "melanoma",  
    "image": "1.jpg",  
    "abstract": "This is a test abstract 1.",  
    "full": `  
      Paragraph 1  
      ---  
      Paragraph 2  
      ---  
      Paragraph 3  
    `,  
  },  
  {  
    "id": "2",  
    "date": "05/06/2022",  
    "title": "This is a title 2",  
    "type": "blood",  
    "image": "2.jpg",  
    "abstract": "This is a test abstract 2.",  
    "full": `  
      Paragraph 1  
      ---  
      Paragraph 2  
      ---  
      Paragraph 3  
    `,  
  },  
  {  
    "id": "3",  
    "date": "09/06/2022",  
    "title": "This is a title 3",  
    "type": "cns",  
    "image": "3.jpg",  
    "abstract": "This is a test abstract 3.",  
    "full": `  
      Paragraph 1  
      ---  
      Paragraph 2  
      ---  
      Paragraph 3  
    `,  
  }  
];
```
